
GORILLAS & GREAT APES

Three remarkable primate encounters. One unforgettable journey.

Begin in Kigali and travel through the forested highlands of southwestern Uganda - golden monkeys at Mgahinga, mountain gorillas at Bwindi, wildlife along the Kazinga Channel, and chimpanzees in Kibale.

Golden Monkeys

Cross from Kigali into Uganda's Virunga highlands. After a relaxed first evening near Lake Mulehe, enter Mgahinga's bamboo forest the next morning to track lively golden monkeys before continuing to Bwindi.

Mountain Gorillas

The signature experience of the journey. Trek through Bwindi Impenetrable Forest with expert guides to locate a habituated mountain gorilla family, then spend an extraordinary hour observing them at close range.

Kazinga & Wildlife

Trade rainforest for savanna and waterways. Cruise the Kazinga Channel for elephants, hippos, buffalo and abundant birdlife, overnight at Mweya, then enjoy an early game drive before heading north.

Chimpanzees

Enter one of Africa's great primate forests to track wild chimpanzees as they move, feed and communicate through the canopy. Then slow the pace amid Ndali's beautiful crater-lake landscape.
